

**CARAVELLE**

1998

Ever since Caravelle started building boats over thirty years ago, we've offered a total commitment to producing quality boats. And Caravelle offers more. We give you products with strength, energy and vitality in their designs. Boats that are more expressive and exciting to own. More lively and satisfying to drive. We are truly passionate about marine technology and design. Its shows in every model we create. See it in the styling. Feel it in the performance. Experience the excitement of Caravelle.

**CARAVELLE**

< Underneath the sculpted lines of the foredeck, you will discover a surprisingly roomy cabin with sit-up head room and a six foot sleeping berth. The comfortable cushions conceal three generous storage compartments and a compartment for the optional portable head.

∨ The steering wheel tilts, allowing you to find the most comfortable driving position and the best view of the classic white analog gauges and the Humminbird® digital depth finder.

## Interceptor 232

### Sport Cabin

Imagine the perfect day... wide-open sky, wide-open water, wide-open throttle. A combination not easily found unless you have a sunny day and a Caravelle Interceptor. The wind is not an obstacle you are fighting against, but an ally enhancing your sense of speed and freedom. No longer are you concerned about where you are going, but rather how much time you have to be away.

∧ The cockpit of the Interceptor is a refreshing blend of form and function. Molded-in fiberglass armrests flow smoothly into the dash consoles. The contoured bench seat cushions are backed with Aquaplas composite frames (instead of wood) and rest on a molded-in fiberglass base that is an integral part of the deck. This unique design is stronger and more rigid than conventional sundeck/bench seat construction. It significantly reduces vibration and noise.

**Specifications**  
 Centerline: 23' 0"  
 Maximum Beam: 8' 4"  
 Maximum Engine: 385 hp  
 Fuel Capacity: 50 gal  
 Weight (approx): 3200 lb.

**Specifications**

Centerline: 23'0"  
 Maximum Beam: 8'4"  
 Maximum Engine: 385 hp  
 Fuel Capacity: 36 gal.  
 Weight (approx): 3000 lb.

← There is plenty of space to stretch out on this Interceptor. The large rear sundeck is great for enjoying the sunshine. Bow filler cushions convert the bow seating area into a second large sun lounge.

## Interceptor 232 *Bow Rider*

The unique silhouette and aggressive stance of the Interceptor 232 bow rider promise exhilarating performance. This promise is more than get coat deep, thanks to a powerful V-8 engine combined with an efficient hull design. They provide an impressive hole shot and top end speed as well as excellent handling and responsiveness.

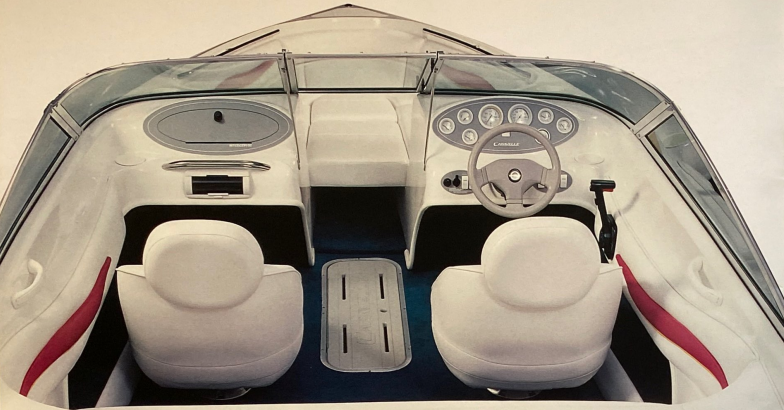

A Classic backlit gauges are easily read, and their view is unobstructed by the tilt steering wheel (standard equipment on the Interceptor). Rocker switches are smoothly integrated into the design and can be comfortably adjusted by the driver.

A Further enhance the performance of your Interceptor by specifying an (optional) electronic switchable exhaust system. With the push of a rocker switch, you can divert exhaust either through the drive unit or the exhaust pipes.

Y Sport-type front bucket seats give you firm support that doesn't fade with the hours. Our UV resistant, foam backed 30 ounce expanded vinyl offers a high memory retention and a soft feel. And our seat cushions and bolsters have been designed to help hold you in place when the turns get tight. So come inside and enjoy the performance...from the best seats in the house.

A When you yell "hit it" you'll be glad you are behind an Interceptor 212 equipped with the new Caravelle XPV (eXtended running surface, Pad bottom, deep Vee) hull. The extended running surface offers quicker planing and allows the boat to stay on plane at lower speeds. The pad bottom combines with the extended running surface to offer impressive top speed and amazing stability.

## Interceptor 212

### Boat Rider & Sport Deck

One look at a Caravelle Interceptor 212 and you know you're in for something special. These are extraordinary sport boats that are pure of purpose in both design and intent. An Interceptor is refreshingly unique. It will satisfy your desire for innovative style without sacrificing the comfort and convenience you require. We know we can't be all things to all people. And that's the principle behind the Interceptor. Instead of designing a generic boat that a lot of people will like a little, we design boats that a select few can really love.

**Specifications**  
Centerline: 21' 0"  
Maximum Beam: 8' 0"  
Maximum Engine: 300 hp  
Fuel Capacity: 36 gal.  
Weight (approx): 2900 lb.

A. Dramatic lines on the bow of the Interceptor Sport Deck (reminiscent of a classic sports car) cause observers to give this boat second, third and fourth looks.

A The extra large stainless steel ski tow eye is another of the seemingly minor details that make the 209 bow rider a pleasure on the water. Skiers will appreciate the ease with which a ski rope can be attached to the ski tow eye.

## 209

### *Bow Rider*

When you first look inside the 209 bow rider you will be impressed with the width of the cockpit. Our engineers transferred nearly all of the 102 inch beam to the interior of the boat. The molded-in bench seat is wide enough to comfortably seat four adults. Once you slide behind the wheel you'll notice that the 209 is clearly designed with the driver in mind. The easy-to-read analog gauges and the controls are carefully positioned at the precise location and angle where they're most easily reached and used.

**Specifications**  
 Centerline: 20'6"  
 Maximum Beam: 8'6"  
 Maximum Engine: 300 hp  
 Fuel Capacity: 36 gal.  
 Weight (approx): 2900 lb.

A Quickly getting from point "A" to point "B" is no problem for the Caravelle 209.

Y Contoured interior side panels add a sense of luxury and completeness to the interior of the 209. High sided bucket style captain chairs are as functional as they are beautiful.

209

## Cuddy Cabin

From the tip of the attractive stainless steel bow rail to the rear of the large integral swim platform, the 209 cuddy cabin offers value and luxury. The wide cockpit has plenty of room for passengers. A spacious sundeck conceals a storage area large enough to accommodate a knee board. Underneath the foredeck, you will discover a surprisingly roomy cabin with sit-up head room and an ample six foot sleeping berth.

**Specifications**  
 Centerline: 20'6"  
 Maximum Beam: 9'6"  
 Maximum Engine: 300 hp  
 Fuel Capacity: 50 gal  
 Weight (approx): 3000 lb.

A The comfortable cushions conceal three generous storage compartments and an optional self-contained marine head.

Y The 209 cuddy cabin is big on interior space, and this roomy cockpit is big on detail, too. Notice how the upholstery colors in the cockpit blend with the instrument panel. The two molded-in fiberglass steps that offer easy access to the bow flow smoothly with the rest of the lines in the cockpit. Even the clear, curved windshield features a sleek, rounded frame.

# 188

## *Boat Rider*

It's no secret. You would like a boat that is "small on the outside" so you can easily trailer it, maneuver it, and store it in your garage. You also want a boat that is "big on the inside" so you have plenty of room for friends and gear. That is the concept that inspired our design team to maximize the amount of space in the 188 bow rider. Measure our interior space against the competition and you will discover that all eighteen foot boats are not created equal.

**Specifications**  
Centerline: 18'0"  
Maximum Beam: 8'0"  
Maximum Engine: 205 hp  
Fuel Capacity: 30 gal.  
Weight (approx): 2500 lb.

*A one touch of the throttle and the Caravelle 188 quickly delivers an exhilarating driving experience, thanks to an enthusiastic stern drive engine coupled with the Caravelle XPV (eXtended running surface, Pad bottom, deep V) hull.*

188

## Fish & Ski

Think of the activities you enjoy on the water. Fishing, of course. Taking a relaxing cruise with family and friends. And don't forget skiing. You know what's important to you, so making your list is easy. But can you find all of that in one boat?

You will in a Caravelle fish and ski. You can have a great fishing boat without sacrificing the comfort, safety and good looks of a runabout. Simply stated, a Caravelle fish and ski delivers more of what you're looking for.

### Specifications

Centerline: 18'0"  
 Maximum Beam: 8'0"  
 Maximum Engine: 205 hp  
 Fuel Capacity: 30 gal.  
 Weight (approx): 2500 lb.

212

## Fish & Ski

### Specifications

Centerline: 21'0"  
 Maximum Beam: 8'0"  
 Maximum Engine: 300 hp  
 Fuel Capacity: 35 gal.  
 Weight (approx): 2900 lb.

1. The 212 fish and ski offers a large front casting platform and durable, all plastic fishing chairs that are lightweight and free from heavy metal hinges that can easily pinch fingers.

One feature that separates a Caravelle fish and ski from the competition is the ease with which the boat can be converted from a ski boat to a fishing boat.

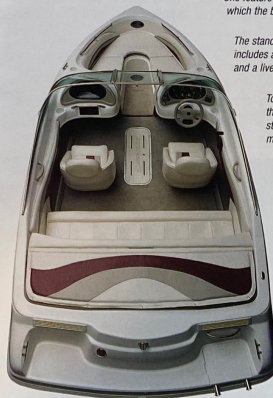

The standard trolling motor panel in the bow of a Caravelle fish and ski includes a receptacle with chargeback feature for a 12/24 volt trolling motor and a livewell aerator control switch with indicator light.

To prepare the bow rider area for fishing, simply unsnap the padded bow cushions and store them in the in-floor storage compartment. Insert the bow filler section and mount the lightweight molded plastic fishing chair.

Unlike many of our competitors, a Caravelle fish and ski does not require you to manhandle heavy seats from the cockpit area to use as fishing chairs.

To convert the sundeck, remove the sundeck pad and store it under the rear bench seat. This will reveal the carpeted casting deck with a built in live well. You can then mount the rear fishing chair that is conveniently stored under the sundeck.

When a fish and ski is converted for skiing you can retain all the comfort and luxury of a runabout. All the fishing accessories are easily stored out of sight.

# 175

## Bow Rider

Of course you want your family's boat to be functional, safe and affordable. You would like a comfortable interior and great styling. And you would like a boat that is fun to drive. Is it unreasonable to ask for all that in one boat? Not if your boat is a Caravelle 175 bow rider. We engineered this boat in the same manner as we engineer our larger boats. To offer obvious quality in a class that sees mostly compromise. To add thoughtful details that provide comfort and beauty. To give the 175 bow rider the quality, spaciousness and a level of fit and finish normally reserved for much more expensive boats. The Caravelle 175 bow rider is a boat you can afford to get excited about.

Instrumentation in the 175 bow rider includes critical engine monitoring gauges as well as a tachometer, speedometer and a trim indicator gauge. A straight-forward design that's more unusual than you might think.

**Specifications**  
 Centerline: 17'4"  
 Maximum Beam: 7'1"  
 Maximum Engine: 135 hp  
 Fuel Capacity: 20 gal.  
 Weight (approx): 2000 lb.
