PERFORMANCE BOATS

CARAVELLE
Powerboats

The spirit of a Caravelle Interceptor is

the promise of genuine boating excitement. The sleek styling, bold colors and awesome performance deliver on that promise. At Caravelle Powerboats we have a total commitment to quality. Every Interceptor is built to the highest standards for dependable performance. Industry best materials, skilled craftsmanship and proven hull designs provide you and your family the comfort and safety you deserve. We give you models with strength, energy, and vitality in their designs. Boats that are exciting to own, and more lively and satisfying to drive. We are truly passionate about marine technology and design. See it in the styling and feel it in the performance. Interceptor - the ultimate power trip.

From Start . . . To Finish

Caravelle Powerboats is committed to quality. Superior craftsmanship and premium materials are built into each and every Interceptor Performance Boat.

We start with a sturdy *all fiberglass stringer system*.

Closed-cell foam is then injected into and between each stringer for support, safety and sound dampening.

In the *transom* we use XL composite panels for rock-solid strength and longevity.

The stringer system, transom, and unitized floor are then bonded together to create the **PowerGrid System**, the ultimate in total strength.

Total Composite System

We use a Total Composite System consisting of:

- AmmorFlex® - a more flexible gelcoat for superior resistance to stress cracks and crazing.
- Ammorcoat® - for accent colors, producing a brighter, fade resistant shine.
- AmmorGuard® - an advanced blister resistant barrier coat with a limited one year blister warranty.
- TCS 6000 Resin - completes the Total Composite System producing the finest gel-coat/resin combination in the industry.

Super Structured Molds

Every Interceptor begins in a *form* reinforced mold. This sturdy system ensures consistent quality and structural integrity throughout the life of your boat. Many of our competitors use wood framed molds that will allow flexing and inconsistencies. Each Interceptor hull remains in the mold throughout the critical curing process to remove the chance of distortion. And every mold goes through a rigorous maintenance schedule to make sure each part maintains its genuine shape and luster.

Fiberglass Stringer

Our fiberglass stringer system is foam-filled for excellent support and durability. Closed-cell foam flotation, standard on every Interceptor boat, enhances safety and sound dampening.

Krytex® Knitted Fiberglass

is hand laid in alternating layers. Because it is multi-directional (quad-axis), it produces a stronger boat than the older woven roving (bi-axial) process. It is more impact resistant and produces a smoother and cleaner finish.

Nido-Core

Our cabin decks are reinforced with Nido-Core, a synthetic honeycomb material that produces a strong, yet lightweight foundation. Nido-Core is far superior to either balsa or plywood.

Heavy Duty Vinyl

Our upholstery is made from heavy duty 32oz expanded vinyl with a Stain Resistant Topcoat. This protective barrier along with UV and mildew inhibitors will keep your boat's interior looking new.

Upholstery

Our composite seat bases are more durable than wood and the aluminum braces add even more strength. High-density foam is firm yet very comfortable, and a biocide treatment protects from mildew.

Heavy Duty Windshield

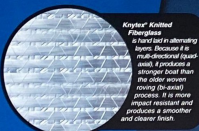

For the ultimate in strength, durability, and protection, our windshields have extra-large, heavy duty windshield frames with tempered safety glass and one-piece stainless steel supports.

Durable Rub Rail

Extra wide rub rails offer superior hull side protection against dockside scrapes and dings. Standard rub rail is color-matched and has a built-in fungicide. Optional stainless steel inserts add to the distinctive look to your Interceptor.

Instrument Panels

Aluminum instrument panel features Faria gauges with color-coordinated bezels and glass lenses. A Dino Sport wheel with M steering, hour meter, digital depth finder are standard.

Features You'll Appreciate

We know you'll find Caravelle Interceptors to be well equipped, with features performance boat enthusiasts can appreciate.

Features like bold colors and graphics, switchable electronic thru-hull exhaust, stainless steel hardware, comfortable sport seating, and exciting hull designs that make boating and other water sport activities more enjoyable.

Thru-Hull Exhaust
Electronic switchable thru-hull exhaust is a popular option on all Interceptor models.

Stainless Steel Package
For a sleek look opt for the popular stainless steel package featuring a stylish, stainless steel rub rail and five recessed put-up cleats.

Flip-Up Bucket Seat
This option provides you with a choice of normal or booster height positions and when in the up position, allows driver to stand comfortably behind the wheel.

Sport Seating
The spacious sundeck w/ bench-seat configuration provides abundant storage and a great place to sunbathe.

Rear Bench Seat
The hinged rear bench seat offers abundant storage and accommodates skis easily. It is also a molded-in part of the deck, adding structural integrity.

Insulated Coolers
Drinks and other essentials are always cold and handy in the easy-access bow cooler.

3-Step Ladder
This standard feature comes with a telescopic ladder and sturdy grab handle for convenient deepwater access.

Bow Filler Cushions
Removable bow filler cushions make for a great place to sunbathe or just relax, while also providing additional comfort.

Hinged Ski Storage
Our carpeted aluminum ski locker lids are more convenient than nonhinged versions. They are more durable than wood, and won't stain or fade like plastic ones.

Sony Sound System
A Sony CD stereo with removable faceplate comes standard on all models and includes four marine speakers and a handheld remote. Optional upgrades include 800 watt amp, 10 CD changer, 10" subwoofer, and a transom remote.

260 Sport Cabin

Sport cabin interior

Stylish dash comes with color-coordinated bezels, full instrumentation. Shown with optional Kiekhaeffer controls

Optional drop-out bolster seat provides comfort and convenience.

The Interceptor 260 Sport Cabin will impress you from the moment you step aboard. The Caravelle V24 Offshore Hull cuts through rough water and offers an amazingly smooth, dry ride. The cockpit features a full fiberglass liner and U-shaped bench seat with plenty of storage space. The generous cabin provides a full galley with a sink, stove, hanging locker and a portable marine head. You're set for the day with the Interceptor 260 Sport Cabin.

Specifications

Centerline	257"
Max Beam	8'0"
Max Engine	470 hp
Max Fuel	80 gal
Deadrise	24°
Weight (approx)	4300 lb

260 Sport Cabin shown in Thunderbolt color option.

232 Sport Cabin

Sport cabin features storage under cushions and behind the mirror.

Sport dash features a digital hour meter, digital depth finder, tilt steering, 12-volt receptacle and a CD player.

The aggressive profile of the Interceptor 232 Sport Cabin promises exhilarating performance. With its powerful V8 engine and the Caravelle WideTrack hull, this is a serious performer. An impressive hole shot and top-end speed complement the 232's exceptional response and race-like handling characteristics. Inside, the sport cabin makes for a perfect hideaway from the noon day sun.

Specifications

Centerline	23'0"
Max Beam	8'4"
Max Engine	375 hp
Max Fuel	50 gal
Deadrise	20°
Weight(approx)	3200 lb

232 Sport Cabin shown in Thunderbolt color option.

232 Bowrider

Spacious and comfortable seating.

Sport dash features a digital hour meter, digital depth finder, 88 steering, 12-volt receptacle and a CD player.

The Interceptor 232 arrives with muscular appeal and gets your pulse pumping with a powerful V-8 engine. This boat looks great, performs great and when equipped with the switchable thru-hull exhaust, even sounds great. The huge bow area and sizable storage for all your gear enhance every outing in this unique boat. Get excited about boating all over again, with the Interceptor 232 Bowrider.

Specifications

Centerline	23'0"
Max Beam	8'4"
Max Engine	320 hp
Max Fuel	36 gal
Deadrise	20°
Weight (approx)	3000 lb

232 Bowrider shown in Lightning color option.

212 Bowrider

Sport dash features full instrumentation with depth finder, hour meter, CD player, 12-volt receptacle, and tilt steering.

Caravelle XPV hull shown with optional electronic switchable thru-hull exhaust.

The Interceptor 212 Bowrider is sure to satisfy the thrill seeker in you. This boat, simply put, is a pure kick to drive. The Interceptor 212 features the Interceptor XPV hull: it has an eXtended running surface – for quick planing ability and minimum bowrise during takeoff, a Pad bottom – for maximum top-end speed, and a deep V hull – for a smooth ride.

Specifications

Centerline	21'0"
Max Beam	8'0"
Max Engine	320 hp
Max Fuel	36 gal
Deadrise	20°
Weight (approx)	2900 lb

212 Bowrider shown in Firemat color option.

212 Fish & Ski

Sport dash features full instrumentation with depth finder, hour meter, CD player, 12-volt receptacle, and tilt steering.

The hinged rear bench seat offers abundant storage and is long enough to accommodate skis.

Think of the activities you enjoy on the water.

Fishing, of course. Taking a relaxing cruise with family and friends. And don't forget skiing. Can you do all these things with one boat? You can if that boat is an Interceptor Fish & Ski! You can have a great fishing boat without sacrificing the comfort, safety and good looks of a runabout.

With a Caravelle Fish & Ski, it's like buying one boat and getting another one free!

Specifications
