1991

# CARAVELLE

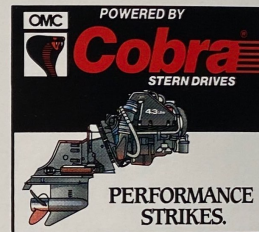

What better way to experience the excitement of pleasure boating? The styling you want, the performance you love and the quality you deserve.

Because no two boat buyers are the same, Caravelle gives you more choices: more color combinations, more seating options, and plenty of optional features to satisfy your individual boating needs. Choices in styling, size and function are also available from the five different Caravelle series.

A Caravelle boat is strong and durable. Fiberglass, coremat and gel coat are applied in up to ten layers. Stress points are reinforced with fir, balsa core or coremat with additional layers of fiberglass to meet your demanding expectations. The stringer system is fir and is bonded to the hull and floor with woven roving to form a durable unit. Both floor and stringer systems are completely encapsulated in fiberglass to ensure long life. Premium grade vinyl fabrics enhance the comfortable interiors and plush marine grade carpet covers the floor entirely.

Thru-bolted stainless steel rails and hardware resist the elements and provide added strength. For durability, serviceability and maximum corrosion protection, Caravelle boats are powered by OMC Cobra Stern Drives.

Caravelle quality is built right in. . . standard. Inspections based on specifications cover 185 check points. Quality assurance at Caravelle is motivated by a desire for customer satisfaction and our five year structural warranty guarantees it.

# for 1991

## ROYALE

The Royale series provides a luxury environment and truly first class "Royale" accommodations without forgetting the performance lover in you. These wide beam trailerable cabins offer function and convenience with an impressive lineup of standard features.

## INTERCEPTOR

If it's high style and high performance you want then the Interceptor series will take you to new heights. Experience the precision handling and exceptional performance with more speed from fewer cubic inches than most other twenty three foot boats.

## ELEGANTÉ

Family boating at its finest can be found in the Elegante series. These bow riders and cabins have a way of turning boat owners into boating enthusiasts. Expressive style with impressive performance make Elegante the tried and true favorite.

## CLASSIC

The best value in boating just got better in 1991. The Classic series from Caravelle now gives you curved windshields, stainless steel rails, six color options and a long list of standard features. Regardless of your budget there's no reason to settle for less than a Caravelle.

## CALIENTÉ

The hot one! Our Caliente has the look that gets the looks. Bold colors and aggressive styling makes the Caliente a real head turner. But this boat doesn't just look good, V-8 power and exceptional handling make the Caliente a hot performer all the way around.

*experience the excitement!*
